(PERMIT TERMS CONTINUED)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The total combined duty of water under Permits 46712, 46925, 46926, 46927, 46929, 46930 and 46931 shall not exceed 288.75 million gallons annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.
